EXPERIENCE

Swiftrut Technologies

Full Stack Developer (MERN)

📅 July 2024 - Present   ● Surat, India

- Leading a development team, ensuring efficient collaboration and project execution.
- Developing a SaaS application using the MERN stack technologies to deliver scalable and high-performance solutions.
- Exploring and integrating new technologies like Redis, Docker.

Vermillion Tech

Next.js Developer Intern

📅 Dec 2023 - Jan 2024   ● Surat, India

- During my enriching 7-day internship at Vermillion Infotech, I gained hands-on experience working on a stimulating Next.js project
- This invaluable experience not only broadened my understanding of Next.js but also provided profound insights into its practical applications.
- Leveraging the power of Figma for UI design, I seamlessly integrated design elements, ensuring a visually appealing user experience.

PROJECTS

Social Media Management - Scheduling Tool

- A micro-SaaS application designed to help solopreneurs and small businesses efficiently manage, schedule, and analyze their social media content with features like post scheduling, content calendar, analytics, and social media API integration.
- Provides detailed analytics and reports to track engagement, optimize posting strategies, and improve social media performance.

Hospital Management System

- Developed a comprehensive hospital management system with Admin, Doctor, and Patient panels, enabling online/offline appointment booking and seamless doctor-patient interactions.
- Integrated real-time chat, video consultations, and prescription management, allowing doctors to diagnose patients remotely and generate digital prescriptions.
- Implemented a secure billing system with payment gateway integration for hassle-free transactions.

CAREER VISION

"I am a passionate and driven web developer committed to becoming a proficient full-stack developer. With hands-on experience working with diverse clients, I consistently deliver high-quality solutions that exceed expectations. "
